

### Aluminum Pergola

We offer wide selection of products to custom suite your needs to enjoy the outdoors with style and comfort. Our pergolas are also equipped with a structured gutter system. Built to withstand up to 120km/h winds and hold at least 90kg per sq/m to stand up to snow fall and autumn debree, its sturdy aluminum frame is durable and sure to last for many years to come. Our experianced installers can assemble and erect the structure in less than 12 hours.

### Louvered Roof

Our Pergolas are available with adjustable, louvered roof panels that enable you to sit in the shade or enjoy the outdoors with as much sunlight as you need.

### Polycarbonated Roof

A great durable light weight solution, available in translucent for maximum sun light and through variety of colours up to 100% light blockage according to your needs. Polycarbonate is capable of withstanding extreme cold and hot temperatures which makes it very versatile.

### Windows & Doors

Our Windows and Doors are manufactured in Canada, we also install and service European Designs. We offer wide selection of wood, steel and fiberglass doors also products that meet latest building and fire code standards. Our knowledgeable staff can assist you in choice of product and colour to suit your needs

### Siding

All our product is custom made out of 0.026 gauge aluminum and professionally installed by our experianced contractors

### Eavestrough

We offer Two sizes of the eavestrough, 5" seamless ideal for bitumen shingles 6" seamles recommended for metal roofs

### Soffit & Fascia

All our product is custom made out of 0.019 to 0.027 gauge aluminum and professionally installed by our experienced contractors. We offer wide selection of materials: aluminum, wood, vinyl and hardie cement board.
